Every Member a Minister

Mid-Covid 19
Becoming Clearer

Objective: *As we look to the "new normal," please answer a few questions that would help direct our course of action for the immediate future.*

BGCC Survey

Are we keeping connected?
- ◯ Yes, the church and staff is keeping connected
- ◯ No, I feel uninformed about services on-line
- ◯ Please have the pastor call me (add information below)

Comments or Note to pastor:

When the church re-opens under state guidelines, I would prefer...?
- ◯ to continue to watch the service online
- ◯ come to church but maintain social distancing when services restart at 9:30AM
- ◯ Not come to church until all government rerstrictions have been lifted.

How are you weathering the quarantine?
- ◯ Very well
- ◯ OK
- ◯ struggling

How can we help?

Description: Installation of a web interface to connect to a new professional camcorder. The web interface connects to a needed computer via USB port. The computer will need to have connectivity to the internet. Also included is the distribution of the video and audio signals to existing TV's with HDMI input ports. The distribution includes 2 in the basement, 2 upstairs in the nursery area, and a wall jack with connection in the narthex/lobby. An option is added to add an 86" HD Display on the wall in the fellowship hall with a second smaller TV on the opposite side along with 2 wall speakers and a mixer/amplifier to power them. The audio/video signal from the sanctuary will be fed to the fellowship TV along with an HDMI wall jack that will also be connected to the TV. An automatic priority HDMI switcher will be installed to automatically switch between the wall jack and sanctuary feed. The HDMI audio will be extracted and fed into the mixer/amplifier to power the speakers. The mixer will accommodate a microphone in the future if desired. A third option is adding 4 theatrical style overhead lights with a controller on the wall of the tech booth. The lights are LED RGBW with zoom control that will allow the adjustment of variable white color temperatures as well as colors. Four power outlets will need to be installed in the ceiling near each fixture by the church as IPM is not authorized for electrical work in Michigan. Thank you for contacting IPM for your audio and video needs.
